## Estate Management Procedures (EMP) - 2011

### Introduction

1. The Industrial Policy announced by the State Government provides that the State Development Agency (HSI IDC in this case) shall frame its own internal set of guidelines for the management of industrial estates, prescribe the terms and conditions for allotment, transfer, leasing, resumption etc. of plots & all other related processes and procedures to be followed by the State Developing Agency and the allottees of plots. These internal guidelines constitute what is referred to as the Estate Management Procedures (EMP) hereinafter.
2. In line with the decision of the State Government, the Haryana State Industrial and Infrastructure Development Corporation Limited (HSI IDC) has been following a certain set of operational guidelines in the past. The last set of such guidelines containing the terms and conditions of allotment and processing of subsequent requests were prescribed in the EMP-2005. With the passage of time, these guidelines have been reviewed and revised. These revised guidelines have been approved by the Board of Directors of HSI IDC in its 312<sup>th</sup> meeting held on 20<sup>th</sup> December 2010 and have come into operation w.e.f. 01.01.2011 and are hereafter referred to as "EMP-2011".

### Applicability

3. The provisions of EMP-2011 shall be applicable to all the industrial plots allotted on or after the 1<sup>st</sup> of January, 2011.
- \*4. The previous allottees have the option to either continue to be governed by the terms and conditions of allotment as provided in the agreements executed by them with the HSI IDC at the time of allotment as well as provisions of EMP applicable to such allottees or switch over to the EMP-2011, *subject to the condition that such allottees have not availed any benefit under the earlier EMP-2005 after coming into force of EMP-2011 i.e. w.e.f 1.1.2011. Such requests shall be received and accepted by the concerned Estate Manager, who will certify that such allottee has not availed any benefit under the earlier EMP-2005 after 1.1.2011.* However, it is clarified that the allottees are not entitled to pick and choose the provisions as it best suits them and he/ she will have to opt for the EMP as a package. In case an allottee opts to switch over to the EMP-2011, he/she will have

to submit a fresh unconditional undertaking to accept and be bound by the provisions of EMP-2011 where after the Agreement executed earlier will be deemed to be modified to that extent and the provisions contained in EMP-2011 will come into force in his case. Benefits under the EMP-2011 in old allotment cases will be available from the date of furnishing of such undertaking and it will have no retrospective effect. In all other cases, the terms and conditions, as contained in the agreement/ provisions of EMP applicable to them, shall prevail. However, the rates in respect of various services would be applicable as prevailing at the time of submissions of a service request. Notwithstanding anything contained in this policy, all cases decided in the past as per old EMPs will not be re-opened.

It is clarified that new structure of fee as mentioned in EMP-2011 shall be applicable and payable by the allottee in respect of all the estate services like extension, transfer, leasing, change in constitution, irrespective of the applicability of the Estate Management Procedure as well as date of allotment of plots/sheds by the Corporation.

***\*Amendment by the Board of Directors of HSIIDC in their 319<sup>th</sup> meeting held on 22<sup>nd</sup> March, 2013.***

## Chapter 1

### Development of Industrial Infrastructure and the Estates/ Parks

- 1.1 HSIIDC has been given the mandate to develop Industrial infrastructure and thereby facilitate development and growth of industry in the state of Haryana. The Corporation has developed industrial estates through out the state in this process. Details of the Industrial Estates developed by the Corporation as well as Industrial Estates/Parks, under development are given in the statement at **Annex-1.1 & 1.2** respectively.
- 1.2 In addition to the above stated already developed Industrial estates/ Parks/ IMTs as detailed in Annex-1.1, the HSIIDC has plans for development of Industrial Parks at various locations of which details are given in the statement at **Annex- 1.3**
- 1.3 The process of development of Industrial Infrastructure necessarily involves acquisition of land, planning, execution of development works e.g. roads, water supply, sewage, drainage, and electrical infrastructure. This is followed by provision of secondary level of facilities such as the STP/CETP, development of plantation/green belts, commercial and institutional sites, common parking facilities, etc. Indicative details of the amenities falling in different categories are given in **Annex- 1.4**
- 1.4 The scope and scale of amenities so provided may vary across the industrial estates depending upon the size of the estate and may not be uniform in all the Industrial Estates. The effort always remains to develop the basic infrastructure facilities in an industrial estate before initiating the process of allotment of industrial plots. However, there could be exceptions in strict adherence to this approach. These exceptional circumstances could arise from a number of factors such as:
  - i) The HSIIDC may not be in undisputed possession of certain parcels of land on account of litigation which impede the completion of works at certain places;
  - ii) There is overwhelming demand for plots pressing for early allotment and the state may lose out on the potential projects/ investment, if allotments are not made on immediate basis;
  - iii) Certain applicants are in an urgent/ immediate need of land and are in a position to start work on their projects without waiting for completion of these facilities.
- 1.5 Further, there could also be a plan for phased development of the infrastructure facilities. For instance, it has been observed that the WBM roads provide unhindered access to the plots for carriage of construction material whereas the tar-felt roads

get damaged during the spurt of construction activities. In addition to the problems associated with settlement of roads in the initial stages (at least one rainy season), frequent road cuts necessitated for cross-connections for water supply and sewage call for restoration of these cuts. It is keeping these conditions in view that the HSIIDC has planned for provision of the bituminous macadam after a gap of one to two years of the initial allotment. Similarly, the infrastructure relating to drainage works, though an essential part of development, does not impede the establishment of projects. On the other hand, it is recognized that availability of access to the plots, water-supply, sewage facilities and electrical infrastructure constitute the basic facilities for any entrepreneur to start working on his project.

- 1.6 For the purposes of implementation of the EMP-2011, various industrial estates developed by the Corporation throughout the state are categorized as under:-

Sr. No.	Category	Industrial Model Townships/ Estates/ Parks
1	'A'	Gurgaon, IMT Manesar, IMT Roz-Ka-Meo, Faridabad, Industrial Estate/EPIP Kundli, Rai, Bahadurgarh, Murthal, Sonapat, Panipat and Panchkula including the Panchkula Technology Park,
2	'B'	Barhi, Bawal, Karnal, Rohtak and Samalkha
3	'C'	All Estates other than those mentioned above

- 1.7 The above categorisation of estates may be reviewed by the Board of Directors of the HSIIDC from time to time.

## Different scale/ level of Facilities in Industrial Estates

### Primary level infrastructure

The Industrial Infrastructure Development Policy makes it incumbent upon the developing agency to provide following basic facilities within an Industrial Estate before offering physical possession of plots to the Allottee-entrepreneurs:

- Motorable Roads for access to the site
- Water supply system
- Electrical Infrastructure comprising of the Distribution system network
- Sewerage System
- Drainage System

HSIIDC understands as a developing agency that the above mentioned facilities are the basic minimum in order to term it as developed industrial infrastructure and which can be called as the *Primary* level facilities. There are a number of Secondary and Tertiary level facilities and amenities which may be required and which may need to be provided as add-on in due course of time. These have been identified as under:

### Secondary level Infrastructure facilities:

- Sewerage Treatment/ CETP
- Security/ Policing
- Convenience Shopping Facilities
- Idle Parking Spaces
- Green cover and Parks
- Solid Waste Disposal Sites

### Tertiary Level Facilities\*

- Communications/Telecom Services
- Post Office
- Banking
- Provision for Institutional sites
- Provision for Financial Market & Insurance
- R & D Centres
- Skill Development Centres
- Conferencing & Entertainment
- Exhibition & Display facilities
- Cargo Logistics Centres/ Custom-bonded Warehousing
- Petrol & Service Stations

**Social Infrastructure\*:**

- Industrial Housing
- Healthcare & Medical Attendance Services
- ESI Dispensary/ Hospital
- Schooling (if residential facilities are provided)
- Organised Transport Linkages

The scale of facilities listed above are not provided by the HSIIDC in all the Industrial Estates. The provision thereof depends upon a number of factors such as the size of the Industrial Park, the plans and above all, the costs involved in what is to be provided. Some of the facilities come up during the course of growth of the Industrial Estate as and when the viability thereof is established. However, the HSIIDC commits itself to provide all such facilities as are factored in the pricing of the plots at the initial stage.

*\* Provision of tertiary level facilities and social infrastructure is not the direct responsibility of the HSIIDC. In regard to certain facilities such as Banking, Telecom, Postal Services and ESI Dispensary/ Hospital etc. the HSIIDC makes provision for land but development is dependent upon the third parties. Similarly, distribution of power being with the Power Utilities, HSIIDC cannot provide a comfort regarding immediate availability of power connections and uninterrupted supply thereof. HSIIDC's basic responsibility is limited to the erection of an efficient distribution system.*

## Chapter 2

### Pricing of Plots

- 2.1 The pricing of plots in any industrial estate is a function of the cost of acquisition of raw land, administrative costs, survey and demarcation, payment of Government fees, planning, development and provision of basic amenities i.e. roads, water supply systems including the water-works, sewage, drainage, STP/CETP and final disposal of effluents as necessary infrastructure related amenities. The overall costs so incurred are then loaded on to the net saleable area.
- 2.2 The HSIIDC generally allots industrial plots on cost basis but also generates surpluses by way of disposal of commercial sites. The surpluses so generated are ploughed back in meeting investment requirements for over-arching infrastructure facilities that improve the connectivity and means of transport in the state, cross-subsidising the plots in industrially less developed areas, as well as creation of future land bank. For instance, the Corporation utilized the surpluses generated in the process for meeting the part-cost of acquisition of land for the KMP Expressway, NCR Water supply channel, Metro Rail link to name a few. Various components that broadly go into determination of prices of plots are given in the statement at Annex-2.1. The broad policy in pricing of plots is governed by the following considerations:
- i) Need has been felt to decongest the areas immediately surrounding Delhi and develop Industrial Estates in areas where industrial infrastructure has either not been developed so far or industrial development has not taken off with a view to dispersing the development of industries in a balanced manner. As such, pricing can be used as a mechanism to decongest the already congested areas.
  - ii) Industrial plots may be allotted in the IMTs/ IEs for mega projects involving fixed capital investment of Rs. 100 crore or above, or projects involving employment generation of more than 500 persons, at special promotional rates, with the approval of the HIPB, so as to attract large size anchor industrial units at these locations with potential for creation of ancillaries. The pricing under this provision is decided by the HIPB on case to case basis. Further, preferably, not more than 15% to 20% of the plotted area is to be allotted under this special dispensation, any exceptions thereto resting with the HIPB.
  - iii) For other allotments, the industrial plots are priced after factoring the costs indicated in Annex-2.1. The prices of plots will be updated annually, w.e.f.

the 1<sup>st</sup> of April every year, after taking into account the holding costs after the first floatation. However, the Corporation may make exception in this policy in respect of plots located in the industrial estates in industrially backward areas where the availability of plots generally remains higher than the demand;

**2.3 Treatment of enhancement in the compensation paid to the landowners:**

The landowners whose land is acquired under the Land Acquisition Act have a statutory right to file references under Section 18 of the Act seeking higher compensation as compared to what has been determined by the Land Acquisition Collector and paid to them at the Award stage. Notwithstanding the Government Policy of minimum floor rates, scheme of Annuity payments and the R & R Policy, the amount of compensation is often enhanced by the Courts of competent jurisdiction. A finality in this behalf is a long drawn process and difficult to predict in advance. As such, the pricing of industrial plots at the initial stage does not take into account any component of enhancement allowed by the courts subsequently. It is for this reason that the price of a plot is indicated as 'tentative'. The enhancement in compensation may take place at one, two or three levels i.e. (i) District Courts, (ii) High Court, and (iii) finally the Supreme Court. The impact of enhancement in compensation is thus a pass-through and recoverable from the allottees as and when the references under Section 18 are decided by the District Courts or in appeals at higher levels. The enhancement shall be passed on to the allottees within a period of six months from the date of last decision on any of the references decided by the concerned Court for that estate and any price revision thereafter shall also include the component of enhancement. This would be implemented with effect from the next date of general revision of prices.

**2.4 Revision of Prices of Plots in various categories:**

The prices of plots would generally be revised every year after loading the holding cost. The holding cost includes the interest component on the (i) unsold plotted land, and (ii) the infrastructure development costs. The revised rates will take effect from the 1<sup>st</sup> of April every-year.

The prices of plots may also be revised during the course of the financial year in certain cases just before the allotment of plots in any estate. However, any upward revision in the prices of plots during the course of the year will take place with the approval of the Government.

**2.5 Current Rates of Industrial Plots in various Industrial Estates:**

The rates of Industrial Plots in various Industrial Estates for the financial year 2011-12 & 2012-13 are given in **Annex-2.2**

## Chapter 4

### Offer of Possession

- 4.1 An 'offer of possession' means that the Corporation makes an offer of physical possession of the plot/site to the allottee. The Corporation would offer the site(s) for physical possession after it has completed the basic infrastructure facilities comprising of (i) a motorable access road, (ii) water supply system, (iii) electricity distribution system, and (iv) sewage system and made these facilities available at site in respect of the plots for which the possession is offered so as to enable the allottee to start construction of building for the project. It would be in order to offer the possession of plots in an estate in parts or in a phased manner.
- 4.2 Before a decision is taken to offer the possession in an estate, the concerned in-charge of the Industrial Area Division (IAD) shall furnish a certificate to the Estate Manager concerned certifying the completion of such basic minimum facilities. On such certificate from the IAD, the Estate Manager shall carry out a plot-by-plot verification so as to ensure that the plots, in respect of which the possession is proposed to be offered, are free from any encumbrances.
- 4.3 On completion of the above exercise, the Estate Officer shall obtain the Zoning Plan in respect of each plot from the Infrastructure Planning Division (IPD). Thereafter:
- i) The concerned Estate Office of the HSIIDC shall offer possession of industrial plots to the allottees by way of a formal communication at the correspondence address given by the allottee. Letters for 'offer of possession' shall be issued by registered/ speed post or courier services (in order to track the delivery of the communication to the addressee);
  - ii) The offer of possession shall be accompanied with a copy of the 'Zoning Plan' as applicable to the said category of plots;
  - iii) An allottee can represent against the 'offer of possession' within a period of 30 days of the issue of offer letter in case his plot is not free from all encumbrances or absence of the provision of basic amenities, along with the supporting documentary/ visual evidence;
  - iv) On receipt of any such representation, a representative from the Estate office shall visit the site, preferably along with the allottee or his representative, within 7 working days and submit a report to the Estate Manager, who will take an appropriate decision, by a reasoned order, accepting or rejecting the grounds of representation. In case the

representation is found to contain merit, the Estate Manager will direct the offer of possession to be held in abeyance till the deficiency is addressed and rectification is carried out and allow all consequential benefits to the allottee. He shall simultaneously fix the responsibility for wrongful offer of possession made in the first instance. The offer of possession shall be revived as soon as the cause of suspension thereof is rectified.

#### 4.4 Consequences of 'Offer of Possession' by the HSIIDC:

- i) Once the Estate office has offered the possession of plots, the allottee shall be liable to pay interest @ 12% p.a. on the unpaid balance amount of the tentative price of the plot;
- ii) Any default in payment of instalments in time shall entail a penal interest of 3% p.a. over and above the normal interest on the amount of default for the period of default, compounded annually;
- iii) The period allowed for completion of each stage of the project and final implementation of the project shall count from the date of 'offer of possession'.

#### 4.5 *Suo Motu* request for Physical Possession

- i) There may be cases where an allottee is in a hurry to establish his project due to his business commitments and he is not in a position to wait for the completion of the basic minimum infrastructure facilities. The allottee can request for taking physical possession of the site at an early stage in such cases, i.e. before completion of basic infrastructure amenities. In such an event, he assumes the risk of undertaking execution of his project and meets all consequential costs on this account. Based on this clear understanding, the Estate Manager may allow physical possession of the plot to the allottee upon receipt of a request from him to this effect and facilitate provision of the Zoning Plan and approval of his building plans from the IPD;
- ii) As an incentive to such an allottee, interest shall not be charged from him on the outstanding amount till such time the Estate Office formally offers the possession on completion of basic infrastructure facilities. However, counting of the time period for completion/ implementation of the project shall start from the date the allottee is allowed physical possession of the plot in these cases.

**Note:** *Notwithstanding anything contained in this chapter, the existing allottees who have been allotted plots and offered possession before coming into force of the present EMP-2011, the offer of possession already made shall not be subject to any review/ revision under these guidelines.*

## Chapter 5

### Period Allowed for Completion of the Project and Commencement of Business

- 5.1 The allottee shall be required to implement the project on the industrial plot within a period of three years from the date of offer of possession or actual possession of the plot, whichever event is earlier. Implementation of the project would mean commencement of commercial production. However, the allottee should, as far as possible, take following steps within a period of two years of the offer of possession or actual possession, whichever is earlier:
- i) Taking over physical possession of the plot;
  - ii) Submission/ Approval of building plans;
  - iii) Closure of financial tie-ups (Promoter's capital and loans etc.);
  - iv) Commencement of Construction at site;
  - v) Technical and marketing tie-up.
  - vi) Placement of orders of machinery and other capital goods.
- 5.2 No extension in period of completion beyond the initial period of three years counted from the date of offer of physical possession of plot by HSIIDC or taking over the physical possession of plot, whichever is earlier, would be allowed in cases where the allottee has failed to submit building plans duly approved by the Architect, to the HSIIDC after taking physical possession of the plot. In such cases, the plot would be liable to be resumed by the HSIIDC and the payments deposited by the allottee towards the price of the plot (principal cost) would be refunded (without interest) by the Corporation after deducting 10% of the price of the plot.
- 5.3 The period for implementation of the project can be extended by HSIIDC for a period of one year on payment of the prescribed extension fee subject to the allottee (i) having taken over physical possession of the plot, (ii) got the building plans approved from the competent authority/ Architects and (iii) commenced construction activities on the plot.
- 5.4 **Second extension** of one year for completion of project i.e. after four years from the date of offer of physical possession of plot by HSIIDC or taking over the physical possession of plot, whichever is earlier, may be granted on payment of prescribed extension fee in case the allottee has taken effective steps for implementation of project including construction of building, at least up to the DPC level.
- 5.5 **Third extension** of one year, permissible in case of plots of one acre and above only, for completion of project i.e. after five years from the date of offer of physical

possession of plot by HSIIDC or taking over the physical possession of plot, whichever is earlier, may be granted on payment of prescribed extension fee in case the allottee has completed construction of building as per approved building plans and applied for occupation certificate to the competent authority.

- 5.6 In case of sheds, the allottee shall be required to implement the project within two years from the date of offer of physical possession of shed by HSIIDC or taking over the physical possession of shed, whichever is earlier. The period for starting production may be extended by one year, on payment of the prescribed extension fee, in those cases where the allottee has installed/ placed firm orders for substantial part of plant and machinery and depending on merits of each case.
- 5.7 The allottee shall be required to pay the extension fee, wherever permissible, prescribed for that area and the payment shall be due with effect from the date the extension is applicable and for any delayed payment, interest @ 12% p.a. shall be charged on the amount due for the delayed period.
- 5.8 The allottee shall apply for the first, second or the third extension, as the case may be, in the prescribed format, filling out complete information on the eligibility criteria as well as various steps taken by the allottee alongwith Demand Draft for the applicable extension fee and submit the same to the concerned Estate Manager before the expiry of the stipulated period. The Estate Manager shall satisfy himself on the merits of the case and convey his decision with regard to extension within 30 days. In case no reply is received by the allottee within the prescribed time, the extension shall be deemed to have been granted by the HSIIDC. In case no application/request is received from the allottee for extension within the prescribed time for implementation of the project, action will be taken by the HSIIDC for resumption of plot in terms of allotment.
- 5.9 Extension fee shall be charged at following rates:

Sr. No.	Category of Estate	Plots (in Rs. per sq. mtr.)		
		1 <sup>st</sup> Year	2 <sup>nd</sup> Year	3 <sup>rd</sup> Year (applicable for plot sizes of one acre and above)
1	Category 'A'	75	150	250
2	Category 'B'	40	80	150
3	Category 'C'	15	30	50

In case of shed, the extension fee shall be payable on the area of the plot under shed. However, in case of flatted factory, extension fee shall be payable on the plinth area basis.

#### 5.10 Completion of Project

Normally, an industrial project is considered to be completed only after the allottee commences trial/ commercial production from the facility. However, it has been

observed that this aspect needs further detailing keeping in view the current requirements. Accordingly, an industrial project would qualify the criteria for completion in the following cases:

\* (i) The allottee has constructed the building having built up area as mentioned in the project report submitted by the allottee at the time of allotment, subject to the following minimum construction coverage:

1. Upto the size of one acre : 40% of the PCA  
(4050 sq. mtr.)
2. Above one Acre : 25% of the PCA

and the unit has gone into commercial production after installation of plant and machinery as stated in the project report within the specified period.

Partial Occupation Certificate shall be issued provided the allottee has constructed the building with the construction coverage as mentioned in the project report submitted by the allottee at the time of allotment or the minimum construction coverage norms, as stated above, whichever is lower. In case the allottee has obtained partial occupation certificate and started commercial production after installation of plant and machinery within the permissible period, in that case no extension fee shall be required to be paid by the allottee for completion of the second phase of the project.

**\*Amendment by the Board of Directors of HSIIDC in their 319<sup>th</sup> meeting held on 22<sup>nd</sup> March, 2013.**

ii) The allottee has completed the construction equivalent to 95% of the total permissible covered area and has not been able to commence the commercial production, for whatever reasons, but has obtained occupation certificate from the competent authority and has informed the concerned Estate Manager within fifteen days of obtaining such occupation certificate.

**5.11 Project Implementation and commencement of business for the Plots allotted under on-going scheme - Guidelines regarding prestigious projects involving investment of Rs. 30/20/10 crore and other categories allotted plots under the ongoing scheme:**

A separate standard of performance is expected in the case of plots allotted under the on-going schemes. While achievement of the benchmarked level of investment is permissible in a phased manner, Phase-I of the project is expected to be completed within the normal permissible period of three years from the date of offer/ taking over possession (whichever is earlier), while the second phase could be completed within a total of six years' time. In these cases, the allottee shall:

- i) Be required to take possession of plot, submit building plans and start construction at site within two years of offer of physical possession of plot by HSIIDC or taking over the physical possession of plot, whichever is earlier.
- ii) Implement the project within a period of three years of offer of physical possession of plot by HSIIDC or taking over the physical possession of plot, whichever is earlier, after obtaining occupation certificate.
- iii) Extension for implementation of project can be considered in these cases also as in the case of normal allotment with applicable extension fee.
- iv) As regards completion of investment level of the requisite amount in the project by the allottee, (as mentioned in the approved project report - minimum Rs. 30/20/10 crore, as the case may be), a further period of three years beyond the initial stipulated period of three years may be allowed to the allottee to achieve the projected level of investment without payment of fee, provided the first phase of the project has been implemented after obtaining occupation certificate and installation of plant and machinery. In case, the allottee fails to achieve the requisite amount of investment within six years, the fee/penalty will be payable in the following manner:

Sr. No.	Investment achieved	Fee/ Penalty ( as % of the current allotment price)
i)	Above 50% but up to 75% of proposed investment	50%
ii)	Above 75% but less than the minimum investment of Rs. 30/ 20/ 10 crore, (as the case may be)	25%

- v) In case no investment is made in the project within the initial period of 3 years or the investment made is below 25% of the projected investment, the plot shall be liable to be resumed.

## 5.12 Project Completion Certificate

It will be obligatory on the part of the original allottee to obtain 'Project Completion Certificate' from the concerned Estate Manager which will be conclusive evidence with regard to completion/ implementation of the project. For this purpose, the allottee shall:

- i) Submit an application to the concerned Estate Manager (on the prescribed proforma alongwith all the relevant documents/information) within 15 days of completion of the project;

- ii) The Estate Manager shall inspect the Unit or cause the same to be inspected by a team of his officers within a period of 10 days, preferably in the presence of the applicant/allottee;
- iii) The Estate Manager shall issue the 'Project Completion Certificate' within 15 days of receipt of application, where the allottee's claim is found to be in order after verification of the information provided by the allottee;
- iv) In case, the Estate Manager is not satisfied with the claim of the applicant-allottee with regard to completion of the project, the request for issuance of Project Completion Certificate shall be declined in writing within 15 days of the receipt of application, clearly stating the reasons for such rejection.

## Chapter 6

### Surrender/ Resumption of Plots/ Sheds

6.1 The HSIIDC has been mandated to develop industrial infrastructure in the state of Haryana. As such, the Government acquires land and makes it available to the HSIIDC for development of infrastructure. Further, plots for various determined use (i.e. industrial, residential, institutional and commercial) are carved out and allotted to the entrepreneurs for establishment of their businesses. Except those in the commercial category, the plots are allotted according to the pricing policy of the Corporation (which has been elucidated in Chapter 2 of the EMP). It is in this background that the HSIIDC's policies are directed towards a system that encourages genuine entrepreneurs to set up their businesses in these developed industrial estates.

#### A. Surrender of Plots/ sheds:

6.2 Keeping in view that a number of factors impact the establishment of a business in a dynamic business environment, it is recognized that the plans for establishment of a business may undergo a change and the allottee may review and reconsider his plans to carry on with the establishment of the intended business. In such situations, the allottees will have the option to surrender the plots/sheds allotted to them. The requests for surrender of plots/sheds will be regulated as under:

- i) Wherever an allottee surrenders the plot/ shed at anytime within a period of two years of allotment, the Corporation will refund the full principal amount paid by the allottee in such cases, without any interest, within a period of 30 days of the receipt of surrender request.
- ii) Wherever an allottee surrenders the plot/shed within the third year of allotment the Corporation will refund the principal amount paid by the allottee without any interest, after deduction of 5 % of the price of the plot/shed, within a period of 30 days of receipt of the surrender request.
- iii) Any surrender of plot after completion of three years of allotment will entail deduction of 10% of the price of plot/shed.

6.3 The procedure regarding surrender of plots/sheds will be as follows:

The allottee will submit his request for surrender of the plot/shed to the concerned Estate Manager along with complete details of payments made to the Corporation towards the price of plot/shed, who will process the case and refund the amount within a period of 30 days in accordance with the guidelines under para 6.2 above.

**B. Resumption of Plots/ Sheds**

6.4 The plots/sheds allotted by the Corporation are liable to resumption in the following circumstances:

- i) Non-completion of the project on the plot/ shed by the allottee within a period of three years (two years in case of shed) after 'offer of possession' by the Corporation or date of physical possession, taken by the allottee suo-moto, whichever is earlier, unless extension has been allowed separately;
- ii) Non-payment of the dues of the Corporation towards the price of the plot/shed, enhancements, extension fees, transfer fees, leasing fee or any other penalties imposed on account of any compoundable violations, or the O&M charges/other dues;
- iii) Unauthorised transfer of the plot/ built-up premises/shed, unauthorised leasing of the plot/ premises/shed;
- iv) Construction of the factory buildings in violation of the FAR norms or non-compoundable zoning regulations at any stage;
- v) Utilisation of the premises for an unauthorized activity, or indulgence in polluting or causing any nuisance activities as are not conducive to the neighbourhood environment within the estate.
- vi) Violation of any other terms and conditions of allotment.

6.5 In the event of any or all of the above conditions existing, the Estate Manager shall issue a notice to the allottee for rectification of the breach/ violation within a maximum period of upto three months (if otherwise permissible). In case the allottee does not take the corrective action within the said prescribed period of three months, the Estate Manager shall forward the case, along with his recommendations/comments, to the Head Office of the Corporation for appropriate action in the matter. Upon receipt of any such reference from the Estate Manager, the Estate Division at the Head Office shall issue a notice to the allottee at his last known address, by registered post/ speed post/ courier, to show cause as to why the plot should not be resumed. The allottee may be given a maximum of up to 30 days' time to respond to the show cause notice. Thereafter, the Managing Director or his duly authorised representative may grant him an opportunity of personal hearing, if requested by the allottee in his reply/ representation. The MD shall, thereafter, proceed with the passing of an appropriate order. A copy of the order shall be endorsed to the concerned Estate Manager with directions to take possession of the plot/shed, if the plot/shed is ordered to be resumed.

- 6.6 Resumption of a Plot/ built-up premises/shed would entail deduction of 10% price of the plot and refund of the balance principal amount, without any interest, within a period of 30 days of such order. In cases where the plot is resumed along with the structure constructed thereon, the allottee shall be at liberty to remove such structure from the plot at his own cost within a reasonable time of three months, failing which the Corporation may get the cost of construction of the building assessed from approved Valuer/ Chartered Engineer and pay this amount to the erstwhile allottee. In such cases, the re-allotment price of the plot will be inclusive of the amount so paid by the Corporation to the erstwhile allottee.

**C. Restoration of Resumed Plots**

- 6.7 An appeal against the order of resumption passed by the Managing Director shall lie before a committee headed by the Principal Secretary Industries and MD/Haryana Financial Corporation & Director of Industries, Haryana being other members of the Committee. Such Appeal shall be made within ninety days of passing of resumption order.
- 6.8 The Committee may examine the appeal and also grant an opportunity of personal hearing to the appellant. The Committee may pass appropriate orders on the appeal after considering all the facts and circumstances of the case while following the principles laid down in the EMP.

**D. The Process:**

- 6.9 The allottee is obliged to complete his project on the industrial plot/shed within the time-frame indicated in the letter of allotment and the agreement executed by him/ her with the Corporation. His failure to fulfil this obligation, leading to any of the conditions mentioned under para 6.4 above, empowers the Corporation to resume the plot/shed. However, the Corporation, before resumption, would invariably take the following steps:
- i) Remind him to get the building plans approved and start construction at site, if these steps are not taken within a period of one year of the offer of possession or taking over of physical possession by the allottee, whichever is earlier;
  - ii) Caution him about the consequences of non-utilisation of the plot, at the end of two years of the offer of possession, while simultaneously advising him to take the requisite steps towards implementation of the project;

- iii) Issue a show cause notice for resumption immediately upon completion of three years of the offer of possession giving him 15 days' time to respond, afford an opportunity of personal hearing and decide the issue.

The above process is only to help the allottee adhere to a time-frame by way of reminders. Any failure to issue any or both the previous notices by the Corporation would not constitute a breach of the process of resumption.

**E. Procedure in cases pursuant to the completion of the project:**

- 6.10 Once the allottee has completed his project as per the criteria laid down in para 5.10, the Corporation shall always be supportive of his peaceful enjoyment of the property subject to continued adherence to the terms and conditions of allotment and subject to the condition that he does not indulge in any activity listed under para 6.4 of the EMP.

## Chapter 7

### Leasing / Renting of Premises constructed on Industrial Plots/Sheds

- 7.1 Leasing of the premises constructed on industrial plots/sheds will be allowed for permissible industrial activities in order to ensure optimum utilisation of the built-up industrial space subject to the condition that the allottee has completed the project as defined in para 5.10 of the EMP and has obtained 'Project Completion Certificate' as defined in para 5.12 of the EMP. The allottee once allowed to lease out his premises under the previous policies can continue to lease out the premises. Leasing of Industrial Plots as such (i.e. where a building has not been constructed thereon) will not be permitted under any circumstances.
- 7.2 With a view to giving impetus to the technical training/ skill development for meeting requirement of skilled manpower for the industry in Haryana, leasing of industrial premises to technical training /skill development centres providing hands on training on industrial machines, leading to capacity build-up for the industrial sector shall be permissible, subject to prior written permission of the Corporation. It is clarified that the academic institutions which grant degree/diploma courses shall not be permissible.
- 7.3 In order to be eligible for leasing, the allottee/ applicant should have obtained the occupation certificate in respect of the premises, Project Completion Certificate, must not be a defaulter in payment of any dues of the HSIIDC and also must not have committed any violation of the building bye-laws after obtaining the occupation certificate. The plots/sheds on which project has been implemented by any of the previous allottee(s)/ lessee(s) shall also be eligible for leasing. Further, lease instruments exceeding 11 months period should be registered as per legal requirements.
- 7.4 Leasing Fee and Processing Charges:**
- i) The leasing fee will be @ 50% of the Transfer Fee applicable for the plot area, and shall be chargeable only once in respect of the plot/ premises irrespective of the period of lease and the number of leases. In case of shed, the leasing fee shall be payable on the area of the plot under shed. However, in case of flatted factory, leasing fee shall be payable on the plinth area basis. The leasing fee shall be payable on the basis of FAR availed in the following manner:-

FAR availed	Leasing fee payable
Upto 125%	Leasing fee rate x plot area
Above 125% & upto 150%	$\frac{\text{Leasing fee rate} \times \text{Plot area} \times 150}{125}$
Above 150% & upto 175%	$\frac{\text{Leasing fee rate} \times \text{Plot area} \times 175}{125}$
Above 175% & upto 200%	$\frac{\text{Leasing fee rate} \times \text{Plot area} \times 200}{125}$
Above 200 & upto 250%	$\frac{\text{Leasing fee rate} \times \text{Plot area} \times 250}{125}$

No leasing fee shall be charged in cases where premises is leased out to a concern/ firm owned by the original allottee/ his family members with minimum 51% share, subsidiary or holding company of the allottee company or a firm/ company owned by original promoters of allottee firm/company and no lease rental is charged by the allottee. Further, no leasing fee shall be payable in case the allottee leases out the premises after running his unit for more than five years. Wherever, the leasing fee (excluding interest and penalty) equal to 50% of the current transfer fee or more has already been paid in the past in respect of that plot/shed by the present allottee/ earlier allottee(s), under previous EMPs, no fresh leasing fee would be payable now. In other cases, the allottee will be required to pay the difference between the amount due under this policy and the amount already paid. However, the processing fee shall be payable in all cases where leasing fee is not applicable.

- ii) While the processing fee would be payable upfront along with the request/ information (as the case may be), the Leasing Fee would become due from the date of signing of Lease Agreement. Payment of Leasing fee can be made within a period of 90 days from the due date with interest @ 12% p.a. on the amount from the due date till the date of payment. However, in case the leasing fee is not paid within a period of 90 days of the due date, interest @ 15% p.a. shall be charged for the entire period (from due date till the date of payment). Any default in payment of the Leasing Fees within a period of 180 days along with penal interest would amount to a default in terms of para 6.4 of the EMP and may attract consequential action. Any such breach would be compoundable only upon payment of double the leasing fee, along with applicable interest. The revised rates of interest i.e. 12% p.a shall also be applicable in respect of fee being charged by the Corporation for various services and payable after 01.04.2012.

### **7.5 Number of permissible leases:**

There shall be no limit/ restriction on the number of leases permissible in any premises subject to the condition that the premises is leased out only for the permissible industrial activity and meets the normal safety conditions.

- v) The allottee shall file an annual certificate/ return (by 30<sup>th</sup> April each year) confirming the number and name of lessee(s), area leased out and uses of premises leased out during the year and status as on date.

### **7.7 Consequences of un-authorized leasing**

- i) A premises is deemed to have been leased out unauthorisedly if the allottee:
  - a) Leases out his premises or part thereof without complying with the eligibility criteria as defined in the EMP.

- b) Leases out the premises for an activity which is not permissible e.g. an industrial plot can be leased out only for an Industrial activity and not for any office/ bank or commercial activity.

- iii) Further, overall compliance of the terms and conditions of allotment of the plot will be the responsibility of the Allottee qua the HSIIDC and the Corporation will not enter into any correspondence with the lessee on this account.

## Chapter 8

### Transfer of Plots/ Sheds

**8.1** Notwithstanding that the plots/sheds are allotted by the HSIIDC on free-hold basis, the allotment/ management of the industrial estates are being regulated by the Corporation with the sole objective of industrialisation in the State of Haryana. To meet this end, the allotment of industrial plots/sheds is made to the prospective entrepreneurs for setting up their industrial ventures, after following due procedure, involving inviting applications, personal interviews and thereafter selection of the applicant. As such, the allottee is required to utilise the plot/shed by implementing the industrial project within a stipulated period. To that extent, the expression 'Free-hold' is restrained by the attendant conditions. It is for this reason that transfer of unutilised/ vacant plot/shed is not permitted.

#### **8.2 What constitutes a Transfer?**

A plot/ shed allotted by the HSIIDC amounts to transfer in the following circumstances:

- i) In case of individual allottees, there is a change of ownership, by whatever means, i.e. through a sale deed, an agreement with the intent of transfer on a future date, or by way of Power of Attorney (except in favour of family members) ;
- ii) In the case of Partnership Firms and Limited Liability Partnerships (LLPs), there is a change in the partners whereby the majority stake (51% or above) gets transferred through exit of any the partner(s) at the time of allotment and /or induction of new partner(s) and the share of the original remaining partner(s) is diluted below 51%;
- iii) In the case of Private Limited Companies, there is a change in the promoters/directors whereby the majority stake (51% or above) gets transferred through exit of the shareholders at the time of allotment and /or induction of new shareholders and the share of the original remaining shareholders is diluted below 51%;
- iv) In the case of a Listed Company, where the shareholders having largest shareholding as well as management control have changed their hands;
- v) In the case of a Government Company, the change in ownership through disinvestment of shareholding of 51% or more or by way of divestment;

- vi) In case of Merger/ Amalgamation/ Take-over of the allottee company, consequent upon the orders of the Competent Court/Central Govt., where the majority stake of the equity shareholders/ management control gets transferred in favour of third party.

### **8.3 Due diligence and warning to purchasers:**

Transfer of an unutilised / vacant plot/shed is not permissible under any circumstances. In case any third party purchases or acquires interest in a plot/shed before completion of the project in any manner, without prior written permission of the Corporation, he bears the risk of its resumption notwithstanding that he may plead ignorance about the rules and the facts about the property at the time he entered into the sale-purchase agreement. Hence, it is the duty of any purchaser to carry out due diligence, verify the transferability of the plot/shed and the amount outstanding and payable to the HSIIDC at the time of entering into any agreement. The information in this respect can be gathered from the Estate Offices of the HSIIDC. It would be advisable that such information is also sought in writing from the HSIIDC Estate Office. As a general rule, transfer request through Power of Attorney shall not be accepted. However, Managing Director may accept such request in exceptional circumstances, for reasons to be recorded in writing.

### **8.4. Eligibility Criteria for the First Transfer:**

- i) A first-time allottee is eligible to transfer his/her/its plot/ property only after one year of project completion as defined under para 5.10 of the EMP-2011, and obtained 'Project Completion Certificate' as defined under para 5.12;
- ii) A first-time allottee is also allowed to transfer the property if he/it has been allowed to lease out the complete property under the provisions of policy in force from time to time and the lessee having already implemented the project on the premises;
- iii) The transfer of plot/shed will be allowed without the condition of completion of project in case of inheritance, will or within the family members of the allottee (except in case of preferential allotment in favour of NRI / person with disability), succession due to death of the allottee/ majority shareholders or takeover by Banks/ Financial institutions.

### **8.5 Subsequent transfers:**

Once an allottee has been allowed to transfer the plot/ property, the transferee is expected to use it for permissible industrial activity. However, there will be no pre-conditions on subsequent transfers by the re-allottees so long as:

- i) the applicable processing charges are paid to the Corporation;
- ii) the property is used for carrying out permissible industrial activity;
- iii) no violation of building bye-laws, FAR and zoning regulations are made at any stage;
- iv) the dues of the Corporation are paid in time;
- v) the transfer is effected with prior written permission of the Corporation.

No transfer fee would be charged by the Corporation in case of subsequent transfers, provided the first transfer has been made with the permission of the Corporation. However, every subsequent transfer would entail payment of processing charges and execution of a Registered Sale Deed as per the law.

#### 8.6 Transfer fees and Processing charges:

- i) Wherever transfer is permissible, save exempted categories as mentioned under para 8.7 below, the transfer fee shall be payable as under:

Sr. No.	Category of Estates	Plots (Rs. Per Sq. Mtr)

3	Category 'C'	50/-

In case of shed, the transfer fee shall be payable on the area of the plot under shed. However, in case of flatted factory, transfer fee shall be payable on the plinth area basis.

- iii) Transfer fee, wherever applicable, would be charged at double the normal rate in case the transfer request is received by the Corporation (i) beyond 60 days from the date of agreement to sell or (ii) after execution of sale deed in favour of proposed transferee. Besides, interest @ 12% p.a. shall be payable from the date of agreement to sell/ sale deed till the date of payment of fee to the Corporation. Further, in case of substantial delay in submission of transfer request, a penalty equivalent to 10% of the applicable transfer fee, shall be payable for each year of delay or part thereof, in addition to double the normal transfer fee.
- iv) In case the transfer of plot/shed is effected at the stage of Provisional Transfer Letter (PTL) or the plot/ shed is transferred more than once without permission of the Corporation, Managing Director is authorized to

regularise transfer(s) by charging appropriate fee (at least double the normal transfer fee for each such transfer alongwith interest @12% p.a.) considering merits of each case.

- v) In case of non compliance of conditions of Provisional Transfer Letter (PTL) within a period of 120 days, penalty equivalent to 25% of normal transfer fee as per EMP-2011 shall be charged for regularising the delay beyond 120 days, in compliance of PTL conditions.

It may also be clarified that every transfer, including the first transfer, will be allowed only after registration of Conveyance Deed.

### **8.8 Consequences of unauthorized transfers:**

A transfer is unauthorised where the transfer of plot/shed is not permissible as per provisions of the EMP-2011. Any transfer, which is otherwise permissible, but has taken place without prior written permission of HSIIDC, also constitutes an unauthorised transfer. The allottee/ successor-in-interest, as the case may be, will have to bear the consequences of such unauthorised transfer. The consequences of unauthorised transfers would be as under:

- i) In case the vacant/ unutilised plot/ shed has been transferred without completion of the project, the Corporation will take recourse to the resumption proceedings.
- ii) In cases where the allottee/ successor-in-interest comes before the Corporation for regularisation of the transfer after a substantial part of the

building (minimum 75 % of PCA) has been constructed or the project stands implemented, for which the parties had entered into an agreement at the back of the Corporation at a time when the transfer was otherwise not permissible, it may be compounded by charging (i) the difference between the allotment price and the current price, or (ii) double the transfer fee, whichever is higher.

- iii) Wherever, the transfer is otherwise permissible without payment of any transfer fee, but the same has been effected without prior permission of the Corporation, the same may be regularised on payment of the applicable transfer fee as mentioned under para 8.6(i), along with interest payable from the due date.
